**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/718,326	<b>Applicant(s)</b> FARONE ET AL.	
	<b>Examiner</b> Lyle A. Alexander	<b>Art Unit</b> 1797	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The 2/27/08 amendments “related to the species concentration” is new matter that is not supported by the original disclosure.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-2,4-11 and 13-15 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Bochner et al. (2003/0162164).

See the appropriate paragraph of the 8/27/07 Office action.

Even if there were support for the for the proposed amendments “related to the species concentration”, Bochner et al. teach in paragraphs [037],[0347],[0360], etc. determining the kinetic response of the sample in relation to a precise quantity reagents which has been properly read on the claimed “related to the species concentration.”

Claims 1-2,4-11 and 13-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bochner et al. (USP 5,627,045).

See the appropriate paragraph of the 8/27/07 Office action.

Even if there were support for the for the proposed amendments “related to the species concentration”, Bochner et al. determining the kinetic response of the sample in relation to a precise quantity reagents which has been properly read on the claimed “related to the species concentration.”

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 3 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bochner et al. (USP 5,627,045) or Bochner et al. (2003/0162164) either in view of Thompson et al. (USP 5,164,301).

See the appropriate paragraph of the 8/27/07 Office action.

### ***Response to Arguments***

Applicant's arguments filed 2/27/08 have been fully considered but they are not persuasive.

Applicants state the Bochner references do not teach using the ORP to determine the amount of material present. Rather, Applicants characterized Bochner as teaching indication of the presence of the analyte. This is not convincing because even if there were support for this language, Bochner clearly adds a precise quantity of

oxidation-reduction reagents that indicate a threshold concentration of analyte which is indistinguishable from the pending claim language.

Applicants traverse the 35 USC 103 rejections of the stating there is no motivation to modify the Bochner references in view of Thompson to use an indio carmine indicator because Thompson requires two indicators. The Office has only used Thompson to teach the indio carmine is well known in the art and equivalent to the indicators taught by the Bochner references. The Office maintains the 35 USC 103 rejections of record are proper and meet all of the claimed limitations.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
